Call for Participation

re:publica is Europe's biggest festival on the digital society. Each year, more than 20.000 people with broadest backgrounds in science, politics, business, arts, hacker culture, makers and NGOs join our three day event in Berlin to discuss and connect with people that share the same enthusiasm about digital democracy. Now, we take this spirit to Detroit and welcome your ideas. Represent the vibrant **Creative scene** and the **unique History of Urban and Economic Development of Detroit**.

Submit by
August 1st

Submit your session proposal until August 1st at detroit.sequencer-tour.com.
